

WALK & PLAY L.A.

Saturday, May 20, 2023 • Santa Monica Pier

One of L.A.'s Most Iconic Sites

Walk and Play L.A. is a family-friendly community event that celebrates and supports the health of children in Los Angeles while uniting the robust Los Angeles sports community. The event will include a 3K walk, live music and an interactive family festival for all ages. Employees, faculty members, corporate partners, supporters and patient families will have a unique opportunity to walk and play together in solidarity at the iconic Santa Monica Pier.

Corporate Partnership Opportunities

Start a Team

Engage your employees with their family and friends in the effort to make a difference in the health of children by forming a Corporate Team. Encourage your employees to fundraise—and offer to match the dollars they raise. Passionate about a specific area of the hospital? You can direct the funds raised by your team to that area.

Be an Event Sponsor

The event gives corporations an opportunity to partner with Children's Hospital Los Angeles and raise awareness of their brand among families who care about the health of our community's children.

- **Engage with a captive audience of 2,000 plus, including:**
- Patient families and their community supporters
- Influencers from sports and entertainment
- CHLA staff, including: executives, clinicians, physicians, nurse practitioners and research scientists who are leaders in their fields nationally and internationally
- **Align with a world-renowned pediatric academic medical center**

Your Impact

Sponsorship funding directly supports the Children's Fund, which ensures that all CHLA patients receive the critical, lifesaving care they need. More children are cared for by Children's Hospital Los Angeles than by any other hospital in the region. Approximately 67% of the children treated at CHLA annually are covered by government programs. Children's Hospital works tirelessly, with generous support from philanthropic partners, to deliver compassionate, lifesaving care to these kids, but we are not reimbursed for the full cost of the specialized care we provide for them.
